

UNIVERSAL LAW #6: LAW OF TRANSMUTATION

Every single one of us has the power to change our reality through transmutation. Creating a higher vibration allows us to transmute the lower ones. It's all up to us to make the effort to change our own life!

UNIVERSAL LAW #7: LAW OF MANIFESTATION

Thoughts + action = manifestation. Everything that we've created began as a thought. If you want to change your life, the change begins inside your own head. You have to dream of it before it can ever happen! The limits you put on yourself are the only things holding you back.

UNIVERSAL LAW #11: LAW OF PROSPERITY

The more you give, the more you get! The more service and value you offer the world, the more money you'll receive in return! So, if you're having trouble with money, be less concerned with the paycheck and more concerned with how much you're giving away. The money always follows.

UNIVERSAL LAW #16: LAW OF GENDER

Everything has both masculine and feminine energy, yin and yang. The attraction between the two is how creation happens. Finding a balance between the two energies in yourself and in your relationships creates a harmonious experience.

UNIVERSAL LAW #18: LAW OF RHYTHM

Life will always ebb and flow. It moves with the years, the seasons, the stages of development. It's unrealistic to expect things to only move on fast-forward. Settle in and move with the currents, not against them for maximum flow and ease.

UNIVERSAL LAW #20: LAW OF POLARITY

Opposites are just two extremes of the same thing. They might differ by degrees but they occupy the same spectrum. Finding a balance between the two ends is usually the best way to create a happy existence.
