

Pick one of the following Laws and charge your Quantum Observer to view from its perspective. See if, in your experience you can disprove it as a universal law. Look to see if it is in harmony or in conflict with the war powers “laws.”

UNIVERSAL LAW #5: LAW OF RESISTANCE

What you resist persists. You can't stick your head in the sand and ignore your life! Failing to acknowledge a situation means you're not really stepping up and dealing with it. And attempting to avoid it means it's not going to go away! Resistance is fear and you must learn to conquer your fear if you want to resolve your issues.

UNIVERSAL LAW #9: LAW OF ACTION

Actions are simple energy in motion. Inspired action is action that supports your desires and goals and that kind of action is always required for manifestation. You can't just sit back and wait for the miracle! You need to put in a bit of elbow grease.

UNIVERSAL LAW #12: LAW OF INITIATION

Expect an initiation period, a time of learning before things come together. Everyone experiences challenges in life, even when you're on the right path! We're given challenges for a reason so use them as an opportunity to learn and grow. They've been brought to us to make us even stronger on our mission in life.

UNIVERSAL LAW #17: LAW OF EVOLUTION

There is no real death. We're continually evolving at the soul level and evolution is infinite. On the surface it might not appear that you're making progress at times, but your soul is always growing and expanding. Every experience – even mistakes and failures – are allowing our soul to expand. (And let's face it, those experiences often bring on very sudden growth!)
